### <u>Proponents' Testimony</u>:

Bill Slaughter, Director-Department of Corrections (DOC), rose in support of HB 326. Dir. Slaughter spoke to the committee members about the increasing number of inmates that are incarcerated with "meth" use, and manufacturing or the sale as a component of their crimes. He stated that this bill will allow the judges to sentence these offenders to programs where there is sometimes a 70% completion/success rate.

**Director Slaughter** was able to explain to the committee members how the treatment programs and incentives are built into the system for success. If the offender completes the nine-month therapeutic program successfully, and with six months at a pre-release and after care center; the offender is then put on probation with a reduction in the sentence.

{Tape: 1; Side: A; Approx. Time Counter: 117 - 259}

Pam Bucy, Assistant Attorney General, spoke to the committee about how important incentives are for the successful completion of the treatment program for offenders.

{Tape: 1; Side: A; Approx. Time Counter: 259 - 283}

Ron Alsbury, Department of Corrections-Probation and Parole, rose in support of HB 326. He recommended the time frame be 15 months of treatment, pre-release and aftercare for offenders.

{Tape: 1; Side: A; Approx. Time Counter: 283 - 336}

John Hertel, Fergus County Port Authority, spoke to the community about the location of this proposed facility. He explained to the committee members that Lewistown currently has various properties in town that could be renovated to accommodate this type of center.

Mr. Hertel also stated that the addition of the 20-30 jobs this center would provide would be a welcome addition to the area.

{Tape: 1; Side: A; Approx. Time Counter: 336 - 414}

Kevin Myhre, Lewistown Police Chief, Lewistown City Manager, rose in strong support of HB 326 and in support of Lewistown supplying the facility.

{Tape: 1; Side: A; Approx. Time Counter: 414 - 442}

Mike Thatcher, Community Counseling Correctional Services, rose in strong support of HB 326 and stated, "...meth does not discriminate." Mr. Thatcher stated that with the Department of Corrections and Department of Justice working together, a solution can be found to address the growing problem of "meth" use. He further stated that his only concern with this piece of legislation is the 40 beds stated in HB 326 would not be enough.

Mr. Thatcher explained to the committee that the costs to incarcerate and to treat are higher due in part to increased medical costs for the offenders. He concluded his statements by saying, "...this is a proactive and farsighted piece of legislation."

{Tape: 1; Side: A; Approx. Time Counter: 442 - 500} {Tape: 1; Side: B; Approx. Time Counter: 0 - 40}

{Tape: 1; Side: B; Approx. Time Counter: 48 - 60}

Mike Ruppert, Boyd Andrews Service Center/pre-release Center, stated he was in support of this legislation; however, he does not agree with the fiscal note. The figure of \$100 daily is too high and the fiscal note does not provide money for the pre-release segment. Mr. Ruppert stated that \$20 daily would be the pre-release/intensive care cost.

{Tape: 1; Side: B; Approx. Time Counter: 60 - 86}

### Questions from Committee Members and Responses:

**REP. HARRIS** began the questioning portion of HB 326 by posing questions to Director Slaughter regarding the monetary implications from either federal funds or funds earmarked from Gov. Schweitzer.

**REP. PARKER** queried REP. PETERSON if he would be amendable to a "friendly" amendment referring to Page 2 after Line 10 to insert "producing methamphetamine." **REP. PETERSON** agreed to that amendment in its conceptual form.

REP. KOOPMAN posed his line of questions to Dir. Slaughter. The REPRESENTATIVE was interested in what happens to the offender when the offender is just imprisoned in Montana State Prison (MSP). Dir. Slaughter replied that the inmate receives counseling if the inmate is willing to participate in that counseling. The REPRESENTATIVE was then interested in what percentage of inmates are "meth" users. Dir. Slaughter replied that he wasn't sure of the number; however, in the Women's Prison, 85% are nonviolent offenders which may indicate that drug use was their offense.

**REP. KOOPMAN** continued with his questions now directed to the sponsor. These questions were in relation to the \$36,000 cost for treatment per person and the reimbursement aspect of the bill language.

REP. KOOPMAN then directed his questions to Brenda Thompson,
Department of Corrections. These questions were concerning the
incentive that all treatment programs provide. Ms. Thompson
replied that offenders upon successful completion of the program
would have the remainder of their sentence suspended.

REP. HARRIS was interested in whether or not there are any medications that "meth" users could take that would counteract the effects of "meth." Mr. Thatcher replied that there are ongoing experiments and research happening; but as of now, there is no medication.

**REP. MCGILLVRAY** then posed his questions to Mr. Thatcher. The REPRESENTATIVE was interested in the theory of "meth" users and how they may become addicted to gambling. **Mr. Thatcher** responded that, "yes," it has been theorized that the bright/flashy/colors and noises tend to trigger a "meth" effect.

**REP. RICE** finished the question portion of HB 326 by asking Mr. Thatcher to explain the relapse phenomenon and if the time stated in the bill would be sufficient to affect the success of treatment.

{Tape: 1; Side: B; Approx. Time Counter: 122 - 500} {Tape: 2; Side: A; Approx. Time Counter: 0 - 33}

Currently in the State of Montana it is unclear who can negotiate with the tribal community.

- 3) The legislature would approve or disprove any future gaming issues.

What about if an offender would like to attend church; how long would that offender be allowed to be in the church?
